

WinTool 2018.1.2 (August 2018)

Version 19.2

Updates

- Introduction of Cloud Portals to tooling data
The Portals can be downloaded from the WinTool homepage
- Global setting for the Unit System that should be used
- Various software optimizations and bug fixes
- Improved display of timespans

Update of Software

Download the file "wt20187.1.2en.zip" and run the "WinTool 2018.1 DE Update2.exe".

The update should be applied to all clients.

System Requirements

Installed WinTool Version: WinTool 2018.1 or WinTool 2018.1.1
